4 Sherritt cows with calves.

TO MY SHORTHORN FRIENDS—

It is with deep regret that I find it necessary to disperse the Sherritt Farm Shorthorn herd, after maintaining the herd for nearly 40 years. However, due to age, health and a change in farming operation, I find it necessary to do so. I know that eventually it would be impossible to maintain the herd in the high state of quality and productivity at which it has always been maintained. Therefore, the decision to disperse while it is still at the peak of production and in a position to go out and do well for others as it has done for me.

Since establishing the herd in 1916 it has been a great source of pleasure and profit. Some of our top producing families would not be for sale at any time except in a dispersion. It has been my good fortune to have had several great breeding bulls to head this herd. I shall miss my Shorthorn herd and Shorthorn associates, and my Shorthorn friends may rest assured that I shall not lose my interest in Shorthorn cattle.

I sincerely hope that all may be with us on sale day, **NOVEMBER 2** at **SHERRITT FARM**, and trust that it may be both pleasant and profitable for you.

ASA W. SHERRITT.

A group of Sherritt cows and calves.

I have long been familiar with the Sherritt herd. The records prove that it has always been a constructive breeding establishment. Top bulls and great producing cows have always been synonymous with Sherritt Farms. Productions from this herd have had a great influence on Shorthorns in the North Central states area. If you study the pedigrees you will agree that the breeding is the best.

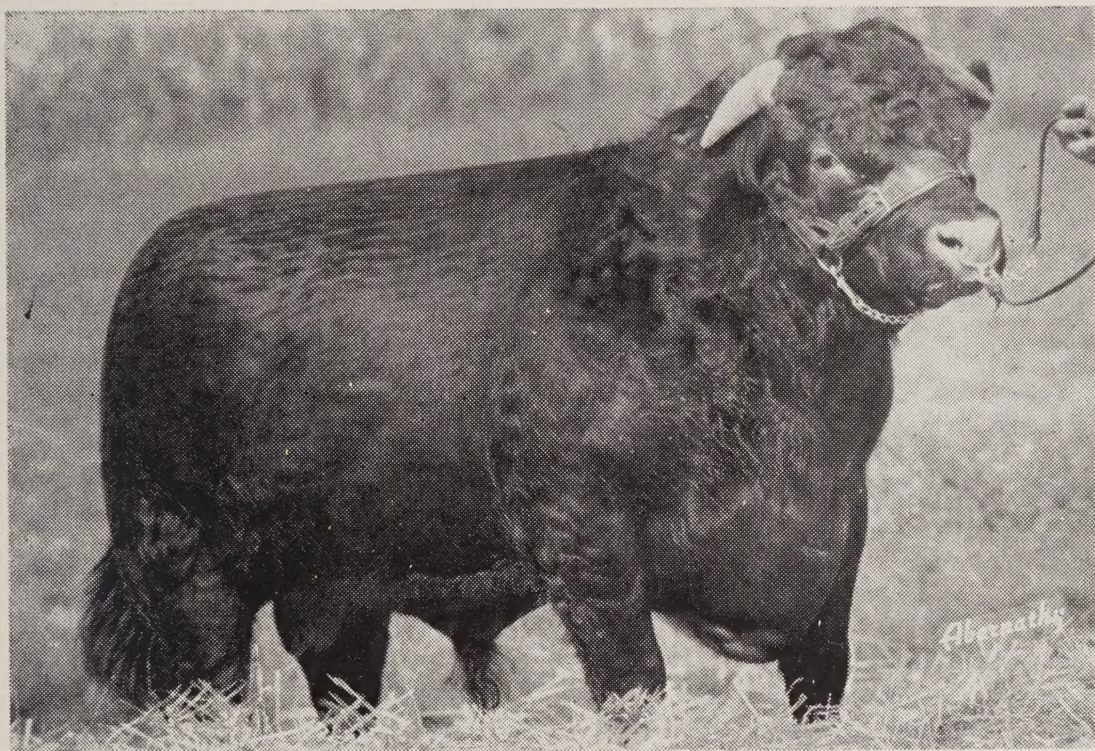

The 27 daughters of Killearn Guy Max that are being offered are as uniform a group of producing cows as you will find. Asa Sherritt has always been very generous in the cause for good Shorthorns. He has been very liberal in loaning his herd bulls to the North Dakota Agricultural College at Fargo where their get has always stood out as some of the best Shorthorn seed stock maintained by any Land Grant college and for which college they have made an enviable record in the strongest shows.

Again I would like to emphasize that it is only in dispersions that the very top tried herd sires and producing females are available at public auction. The dispersion of this herd is other breeders gain.

You are urged to attend this large sale of select foundation animals and help yourself.

MAKE YOUR PLANS NOW TO BE AT SHERRITT FARM ON NOV. 2.

ALBERT J. HAMANN, Sale Manager.

This good headed, straight, level lined bull has produced some outstanding tops. 7 bulls, 26 females, 12 calves at foot by, and 6 females bred to him sell. Memorandum

Standard Guarantee

OF

AMERICAN SHORTHORN BREEDERS

ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals are sold to comply with the laws regulating Tuberculosis and Bangs disease of the state.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this Sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
